

sf::NonCopyable

```
graph BT; A[sf::UdpSocket] --> B[sf::Socket]; B --> C[sf::NonCopyable];
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'sf::NonCopyable'. Below it is a box labeled 'sf::Socket'. At the bottom is a box labeled 'sf::UdpSocket'. A red arrow points from 'sf::Socket' up to 'sf::NonCopyable'. A blue arrow points from 'sf::UdpSocket' up to 'sf::Socket'. The 'sf::UdpSocket' box has a gray background, while the others are white with black borders.
