

Initialization, version
and error reference

Error codes

```
graph LR; A[Error codes] --> B[Initialization, version and error reference]
```

The diagram consists of two rectangular boxes. The box on the left is shaded gray and contains the text 'Initialization, version and error reference'. The box on the right is white with a black border and contains the text 'Error codes'. A black arrow points from the right side of the 'Error codes' box to the left side of the gray box, indicating a relationship or reference from error codes to the initialization and version information.
