

testing::Test

```
graph BT; FooTest --> testingTest[testing::Test];
```

The diagram illustrates an inheritance relationship. At the bottom is a gray rectangular box labeled 'FooTest'. Above it is a white rectangular box with a gray border labeled 'testing::Test'. Two blue arrows originate from the top of the 'FooTest' box and point upwards to the bottom of the 'testing::Test' box, indicating that 'FooTest' inherits from 'testing::Test'.

FooTest
