

testing::internal::
NaggyMockImpl< MockClass >

anonymous:

NaggyMock< MockClass >

```
graph BT; NM[NaggyMock< MockClass >] -- red arrow --> NMI[testing::internal::NaggyMockImpl< MockClass >]; NM -- blue arrow --> AN[anonymous:];
```

The diagram illustrates the relationship between three classes. At the bottom is a grey box labeled 'NaggyMock< MockClass >'. Two arrows originate from its top edge: a red arrow points diagonally up and to the left to a white box labeled 'testing::internal::NaggyMockImpl< MockClass >', and a blue arrow points diagonally up and to the right to a white box labeled 'anonymous:'.
